2022 reform (September–December 2022): revised disclosure form, appraisal right, listing review
H4a information — the mandated statements and their reception change; the forecast does not
H4b compensation — the appraisal right is a put, priced at the announcement
H4c deterrence and bonding — binding commitments and the listing review separate intentions
H4a
H4c
H2: smaller stake, stronger signal
Controlling owner's cash-flow stake (principal–principal)
Division filing (read by the minority and by counterparties)
Disposal of the subsidiary (sale, investor, listing)
H3a: announcement pricing; H4b: post-reform, rises with appraisal moneyness
H1: the filing forecasts the disposal beyond its financials and purposes
H3b: the loss arrives with the disposal
Announcement reaction (efficient reading vs limited attention)
Minority return over the following year
H3c: the one-year loss is concentrated in parents with small controlling blocks
